Going for pintxos

It is recommended to visit 4 or 5 bars and to eat 1 or 2 pintxos with a drink in each establishment.

1 Cold pintxos are generally available right there on the bar, and you can help yourself to them.

2 Hot pintxos should be ordered at the bar.

3 When you go for pintxos it is normal to have one round (pintxo and drink) in each bar before moving on to another bar.

4 You generally pay when you are about to leave. Normally groups of friends either take turns at paying their round or organise a kitty (people here never pay for their own consumption in each bar).
